Note: This path description can also be used for the pilgrims walking from Nea Skiti to Agiou Pavlou.

This beautiful route has special importance as it is the part of the SW route from *Megisti Lavra* which goes up to the 'desert' (*erimos* in Greek), and thence on to *Mount Athos Summit*, *Ag. Anna* and *Ag. Pavlou*, ending up at *Simonopetra*. This route offers spectacular views down the western coast of Athonite peninsula, Mount Athos summit and nearby *Sithonia*.

Note: All distances given (in metres) should be taken as approximate. The numbers shown in the form **1** are Waypoints to be found in associated GPS tracking. The route described is liable to unpredictable change: for example, forestry work, road or track construction and plant growth may alter the route, or its appearance. Signposts may disappear or new ones appear. The Friends of Mount Athos strives to keep this description correct and up to date but cannot take responsibility for its accuracy.
