

FOOTPATHS OF THE HOLY MOUNTAIN

FROM DAPHNI TO PANTELEIMONOS VIA XEROPOTAMOU

Distance: 5.1 km

Journey Time: 1 ¾ hours

Because the condition of the old coastal path that connected *Daphni* to *Panteleimonos* is unknown, this route is via *Xeropotamou Monastery*, which makes it much more attractive. After a stretch on the *Daphni* to *Karyes* main road, ascending traditional *kalderimi* (stone paved path) leads up to the gate of *Xeropotamou*. The second half is an easy descent on footpaths (*kalderimi* in places) and tracks to *Panteleimonos Monastery* near sea level. The journey provides spectacular views down the western coast of the *Athonite peninsula* and the nearby *Sithonia*.

Note: All distances given (in metres) should be taken as approximate. The numbers shown in the form **1** are Waypoints to be found in associated GPS tracking. The route described is liable to unpredictable change: for example, forestry work, road or track construction and plant growth may alter the route, or its appearance. Signposts may disappear or new ones appear. The Friends of Mount Athos strives to keep this description correct and up to date but cannot take responsibility for its accuracy.

Abbreviations: L = Left; R = Right; KSO = Keep straight on;
FP = Footpath; K = *Kalderimi* (stone-paved FP or track)
