

FOOTPATHS OF THE HOLY MOUNTAIN

FROM KARYES TO VATOPEDI

Distance: 10.2 km

Journey Time: 3 – 3½ hours

© The Friends of Mount Athos, 2007 – 2017. All rights reserved. – Version 1.7

This is an attractive journey, with some fine views and scenery, for the most part along historic *kalderimi* or paved mule tracks. The initial section involves a gradual climb out of *Karyes* to around 450m. The route then roughly follows the contour of the mountain, often with views first back towards *Karyes* and *Mount Athos* and later down to the sea. It then descends from the ridge through forest to *Vatopedi*, near sea level.

Note: All distances given (in metres) should be taken as approximate. The numbers shown in the form **1** are Waypoints to be found in associated GPS tracking. The route described is liable to unpredictable change: for example, forestry work, road or track construction and plant growth may alter the route, or its appearance. Signposts may disappear or new ones appear. The Friends of Mount Athos strives to keep this description correct and up to date but cannot take responsibility for its accuracy.
