

FOOTPATHS OF THE HOLY MOUNTAIN

Distance: 4.2 or 4.7 km

Journey time: 1½ – 2 hrs

There are two routes from *Pantokrator* to the small Russian *Skete of Bogoroditsa*.

The most direct route mostly follows the attractive historic footpath from *Pantokrator to Vatopedi*, initially with views back to the monastery and along the coast, with *Mount Athos* in the background. Near the top of the first ridge, a side path connects to the footpath from the *Skete of Profitis Ilias to Bogoroditsa*, joining the second route.

The second route, about 500m longer, initially follows the main road to *Karyes*, with views back to the Monastery and the sea. It then takes a forest track that winds its way up the side of a beautiful valley before joining the historic footpath from the *Skete of Profitis Ilias to Bogoroditsa* which climbs through woods with occasional views back to the other side of the valley and *Profitis Ilias*.

Returning or continuing from *Bogoroditsa to Pantokrator* via the large and handsome *Skete of Profitis Ilias* makes an attractive, though rather longer, alternative route (see separate descriptions for *Bogoroditsa to Profitis Ilias* and *Profitis Ilias to Pantokrator*).

Note: All distances given (in metres) should be taken as approximate. The numbers shown in the form **1** are Waypoints to be found in associated **GPS tracking**. The route described is liable to unpredictable change: for example, forestry work, road or track construction and plant growth may alter the route, or its appearance. Signposts may disappear or new ones appear. The Friends of Mount Athos strives to keep this description correct and up to date but cannot take responsibility for its accuracy.

Description of Routes:

Walk (m) And then . . .

25 Leave *Pantokrator Monastery* by main gate (facing the kiosk). Turn immediately R and R again following *K* road.

- 40 **24** Ignore L turn (down to harbour); KSO on level *kalderimi* road.
- 70 **23** Fork R off *K* onto non-*K* road just after building on R.
Note: Straight on here is the historic route but this involves a steep uphill scramble. To follow it, KSO on *K* for 100m. Then bear L uphill, still on *K*, pass to the L of building, cross open area and scramble up steep bank to reach main road at waypoint **20** below. FP continues on far side of road.
- 100 **22** Ignore road joining from back R. KSO, now on main road, initially with monastery behind and soon with remains of aqueduct on R. Road makes a long curve to L until the monastery is on L.
- 270 **21** Ignore road joining from back R, signed *Vatopedi*. Ignore track down to L.
- 200 **20** Where FP, signed *Vatopedi*, climbs steeply up bank to R, the two routes diverge.

For more direct route via FP to *Vatopedi*:

- Turn R off road, climbing steeply up bank onto rocky FP, continuing uphill across open hillside.
- 350 **19** FP reaches trees, continuing uphill. Stretches of *K* appear.
- 700 **18** Ignore faint track to R (leading to road). FP continues through trees, climbing initially but later flattens out.
- 850 **17** Pass remains of circular building (possible limekiln or *asvestokáminos*) beside FP on R.
Note: May be difficult to spot.
- 600 **16** At junction with FP joining from back L, turn hard L onto FP, signed *Profitis Ilias* and *Bogoroditsa*, uphill (straight on continues to *Vatopedi*, signed).
- 40 **44** Arrive at clearing. FP bends R uphill (signed *Bogoroditsa*).
- 320 **45** FP emerges at rocky track, roughly at crest of ridge. Cross track to pick up FP on further side, now descending

350

41 FP descends to join another FP from below L. This is the FP from the **Skete of Profitis Ilias** to **Bogoroditsa** (both signed) and is where the two routes recombine. Ignore any barrier across the junction with this FP, bear R, signed **Bogoroditsa**, and continue at 'Combined Route' below.

For longer route via FP from **Skete of Profitis Ilias**:

Ignore path steeply up R, KSO on main road, ignoring any further tracks to L.

180

46 At fork, bear R, uphill still on main road. (L descends to **Pantokrator Arsanas** and cultivated land.)

980

47 Road descends and bears L to cross river. At bend, fork R onto track which climbs R side of valley.

1000

38 FP from the **Skete of Profitis Ilias** joins track coming up bank from L. KSO.

Note: FP joining from L may be difficult to spot.

55

39 Turn R off track onto FP, uphill, signed **Bogoroditsa**. This soon becomes fine *K*.

600

40 Pass rocky viewpoint back across valley to **Skete of Profitis Ilias**. FP soon climbs more steeply through trees.

900

41 After FP begins to level out, arrive at a junction with another FP joining from above R (signed **Pantokrator**). This other FP connects with the FP between **Vatopedi** and **Pantokrator**, offering the most direct route back to **Pantokrator**.

Here the two routes recombine. KSO, signed **Bogoroditsa**.

Combined Route:

FP curves L passing remains of water system/mill with **Skete** visible to L.

240

42 FP ends at track. Turn L onto track, downhill towards **Skete**. (R along track leads to the main **Vatopedi – Karyes** road.)

90

43 Arrive at the gate of **Skete of Bogoroditsa**.
